

Stephen A. Ducey, MD, and Frank P. Femino, MD

Named *New Jersey Monthly* Top Doctors for five consecutive years, Dr. Ducey and Dr. Femino have successfully treated a wide range of joint pain and sport injuries for more than a decade. Eliminating pain and restoring an active lifestyle remain their top priorities. With the addition of Dr. Seth Queler, they also add the expertise of treating foot and ankle problems.

Dr. Ducey has extensive experience handling minimally invasive arthroscopic procedures on knees, as well as handling rotator cuff repairs, shoulder and elbow replacement surgery, anterior cruciate ligament (ACL) reconstructions, articular and cartilage surgery and patellofemoral realignment.

Dr. Femino specializes in adult reconstruction surgery and joint replacement. Currently chief of orthopedics at Clara Maass Medical Center, he has performed more than 3,500 joint replacement surgeries, primarily of the hip and knee. He has had much success in performing surgeries that are considered high risk, as

well as those rarely attempted or compromised by previous surgeries.

"We perform state-of-the-art procedures with excellent results," says Dr. Ducey. "We apply the latest nonsurgical methods, including platelet-rich plasma (PRP) injections for chronic pain." "In addition to conservative treatment," says Dr. Femino, "we also apply the latest minimally invasive, tissue-sparing techniques, which lead to a speedy recovery."

HOSPITAL AFFILIATIONS: Clara Maass Medical Center, Belleville; Saint Barnabas Medical Center, Livingston. **MEDICAL TRAINING:** Dr. Ducey: Wake Forest University Bowman Gray School of Medicine; UMDNJ (residency in orthopaedics); University of Rochester (fellowship in sports medicine). Dr. Femino: UMDNJ (residency); Rothman Institute/University of Pennsylvania, Thomas Jefferson University (fellowship in adult reconstructive surgery and joint replacement).
